(cont.from prev.page) perianth and crown are pure white, or nearly so. When, the 4's are all double varieties; the 5's are Triandrus Hybrids, the 6's Cyclamneus Hybrids, the 7's Jonquils and their Hybrids, - in these last three Classes or divisions, the 'a' denotes that the cup is as long or longer than the petals, and 'b' that the cup is less than 2/3 the length of the petals. The 8's are all (in this List) poetaz Hybrids, - with 3-8 fragrant florets to the stem, and the 9's are Poeticus. See front Page for more on this subject, - in different form.
